Background Information

Youth 180 provides programs to serve the needs of vulnerable youth and their families. Youth 180 focuses on a holistic approach to treating young people and their families, and on identifying and intervening in adolescent substance use. Youth 180 works with school counselors to identify and refer students for services in addition to providing educational classes from the evidence-based prevention curriculum to students during the school day. They provide informative sessions as requested on topics related to alcohol, tobacco, and other drug use.

Administrative Considerations

Youth 180 has proven to be a valuable community partner, providing support to students and families district wide. This partnership is provided at no cost to the district. The program educates parents and youth on coping, decision-making and problem-solving skills as well as the risks associated with substance abuse.
