Subject: 2017-18 Annual Education Reports

The 2017-18 Annual Education Reports for individual schools and the district have been updated and placed on the district and each individual building's websites. Copies are available at all buildings for community members who do not have access to the Internet.

Please add me to the agenda of the Curriculum Committee portion of the Board of Education Committee of the Whole on June 11, 2018. I would like to share the 2017-18 District Annual Education Report. This report provides information on the educational progress of the school district, based on last year's performance on state and local assessments.

Thank you for consideration of this request.
