

Committee Test Map 3: 2021 - Rachel Carson Moved & Findley Non-Walking SUMMA to Timberland (no map changes)

This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-Huber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.

All projected 6-8th graders by today's boundaries.

All projected 6-8th graders by the proposed boundaries.

Derived from average Options attendance from elementary schools that make up the proposed MS boundaries. These students are expected to not attend their home MS.

Derived from average AHP and SUMMA program enrollment by elementary boundary. SUMMA students are re-distributed by SUMMA location below.

Projected students after Options, AHP and SUMMA are deducted - this is the projected general education enrollment for each proposed MS boundary

Here students that are attending Rachel Carson or SUMMA programs are re-allocated to each middle school location, so they are counted in the total attending enrollment used to calculate utilization of capacity.

Committee Test Map 6: 2025

All projected 6-8th graders by today's boundaries.

All projected 6-8th graders by the proposed boundaries.

Derived from average AHP and SUMMA program enrollment by elementary boundary. SUMMA students are re-distributed by SUMMA location below.

Projected students after Options, AHP and SUMMA are deducted - this is the projected general education enrollment for each proposed MS boundary

Here students that are attending Rachel Carson or SUMMA programs are re-allocated to each middle school location, so they are counted in the total attending enrollment used to calculate utilization of capacity.

Permanent building only  
Permanent building + portables

This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-Huber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.

Committee Test Map 9: 2021

MS Boundaries: Committee Test 9

All projected 6-8th graders by today's boundaries.

All projected 6-8th graders by the proposed boundaries.

Derived from average Options attendance from elementary schools that make up the proposed MS boundaries. These students are expected to not attend their home MS.

Derived from average AHP and SUMMA program enrollment by elementary boundary. SUMMA students are re-distributed by SUMMA location below.

Projected students after Options, AHP and SUMMA are deducted - this is the projected general education enrollment for each proposed MS boundary

Here students that are attending Rachel Carson or SUMMA programs are re-allocated to each middle school location, so they are counted in the total attending enrollment used to calculate utilization of capacity.

Permanent building only

Permanent building + portables

This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-Huber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.

Committee Test Map 11: 2021

MS Boundaries: Committee Test 11

All projected 6-8th graders by today's boundaries.

All projected 6-8th graders by the proposed boundaries.

Derived from average Options attendance from elementary schools that make up the proposed MS boundaries. These students are expected to not attend their home MS.

Derived from average AHP and SUMMA program enrollment by elementary boundary. SUMMA students are re-distributed by SUMMA location below.

Projected students after Options, AHP and SUMMA are deducted - this is the projected general education enrollment for each proposed MS boundary

Here students that are attending Rachel Carson or SUMMA programs are re-allocated to each middle school location, so they are counted in the total attending enrollment used to calculate utilization of capacity.

Permanent building only

Permanent building + portables

This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-Huber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.
