

## Elementary School Board Report

### Mother's Day Program and Dad's Farm Breakfast

Our Kindergarten students and staff put together a program to honor mothers and recognize fathers. These are such special events recognizing the wonderful things our mothers and fathers do for the students. Each class presented a few poems followed by the entire Kindergarten reciting a poem. There were tears, laughs, and many hugs shared these two days.

### Bike Helmets

Sacred Heart Hospital and Greg Albert donated helmets to all students requesting a new helmet in May. Each day children ride their bikes to school, I ask them where their helmets are and discuss the reasons why this is so very, very important they wear them every time they ride their bike anywhere.

### International Food Festival

Our third graders enjoyed a feast following International Studies in their Social Studies program. Foods from many countries were represented and enjoyed, or at least sampled by most.

### School Family Carnival

The Student Council held another School Family Carnival this year. They sure know how to have fun with families. We had an excellent turn out for the event again this year. Great fun, many laughs, a book fair, and good food were enjoyed by all.

## ABC Countdown

We tried a new way to end the school year this year by incorporating an ABC Countdown with students. Teachers were given the opportunity to participate if they chose to. Each day was celebrated based on the letter of the day. Some of the most memorable days included: Book day, King Day, Queen Day, Twin Day, and Unicorn Day.

Unicorn Day – Dress in colorful clothing. I think Sarah ROCKED it!

Twin day indeed! Well done girls.

## Red, White, and Blue Day

A great big Thank You once again to Kristi Anderson for all the hard work she puts into this program honoring our veterans. Another amazing program performed.
