PARENT SURVEY

Initial Reflection

Desire for more teacher live interactions with students (including small group instruction) and social opportunities. Challenge of assisting child while working from home (Especially younger students) Desire for increased feedback on student work. Reduce workload.

Increase contact time of special area teachers with students.

Consider more printed material then screen time.

Use of technology: device availability, consistent platforms for K-6.

Streamline communication formats and restructure Curriculum templates.

Potential Next Steps

Possible parent focus group. Incorporate feedback into summer curriculum work.
