

Localized Policy Manual

Update 94

Please remember: Log in to **myTASB.tasb.org** and open *Policy Service Resource Library: Local Manual Updates* to download a PDF of this update packet, annotated copies of the (LOCAL) policies, editable (LOCAL) text, and more.

Denton ISD

Update 94 is a special update to address the requirement for districts to adopt local policy for the care of students with a diagnosed food allergy who are at risk for anaphylaxis, as required by SB 27 from the 82nd Legislative Session. SB 27 requires districts to adopt local policy by August 1, 2012, and the local policy must be based on the *Guidelines for the Care of Students with Food Allergies At-Risk for Anaphylaxis* developed by the Texas Department of State Health Services, available at <http://www.dshs.state.tx.us/schoolhealth/default.shtm>.

Update 94 does not include an FFAF(LEGAL) policy, because the corresponding legal provisions were added to that policy at Update 91. However, the F section table of contents is included to reflect a change to the FFAF subtitle.

On June 15, 2012, Policy Service will publish sample administrative procedures and forms in Update 41 to the *Regulations Resource Manual*, available on myTASB, so that districts can have in place for the 2012–13 school year a comprehensive plan to address life-threatening student food allergies.

Please note: Because the law requires districts to adopt a local policy so quickly, districts in which the local policy adoption process calls for two readings of a proposed policy may wish to implement the process for emergency adoption with one reading. [See BF(LOCAL).]

Please bear in mind that the table of contents should NOT be adopted. The (LOCAL) policy recommendations in this update will need close attention by both the administration and the board to ensure that they reflect the practices of the district and the intentions of the board. Board action is needed to adopt, revise, or repeal (LOCAL) policy.

In addition to the updated policies, your Localized Update 94 packet contains:

- **INSTRUCTIONS . . .** providing specific, policy-by-policy directions on how this update, if accepted as prepared, should be incorporated into your Localized Policy Manual.
- **EXPLANATORY NOTES . . .** summarizing changes to the policies in each code. Please note that, where appropriate, the Explanatory Notes ask you to **verify that a particular policy reflects your current practice and to advise us of changes needed** so that our records and your manual accurately track the district's practice.

Copies of *Vantage Points—A Board Member's Guide to Update 94* also accompany this update packet. *Vantage Points* offers a highly summarized overview of the update and is intended to provide local officials a first glance at the scope of the update—as a prelude to studying the detailed Explanatory Notes and policy text within the packet. **Please distribute the enclosed copies of *Vantage Points* to your board members** at the earliest possible opportunity, preferably with their review copies of this update.

Update 94 policies are so identified in the lower left-hand corner of each policy page. If you have any questions concerning this update, please call your policy consultant, Erin Oehler, at 800-580-7529 or 512-467-0222.

Regarding board action on Update 94 . . .

- Board action on Localized Update 94 must occur within a properly posted, open meeting of the board and may be addressed on the agenda posting as “Policy Update 94, affecting (LOCAL) policies (see attached list of codes).” Policy On Line districts have access to a list of the (LOCAL) policies included in the update through the Local Manual Updates application in myTASB. Other districts may generate a list of the (LOCAL) policy codes added, revised, or deleted (and the titles/subtitles of those policies) using the Instruction Sheet as a guide and attach that list to the posting. BoardBook compilers should use “Policy Update 94, affecting (LOCAL) policies” as the agenda item and, as agenda sub-items, the code and name of each of the (LOCAL) policies affected by the update.
- The board’s action on Localized Update 94 must be reflected in board minutes. The Instruction Sheet—annotated to reflect any changes made by the board—and the Explanatory Notes for the update should be filed with the minutes where they make up the authoritative record of your board’s actions. Include a copy of new, replaced, or rescinded **(LOCAL)** policies.
- In constructing the separate historical record of the manual, the emphasis is on tracking the history of individual policies. For guidance on maintaining this record, please refer to the *Policy Administrator’s Guide* at http://www.tasb.org/services/policy/mytasb/admin_guide/index.aspx.

Regarding manual maintenance and administrative regulations . . .

- **Notify your policy consultant of any changes made by the board so that Policy Service records—forming the basis for subsequent updating recommendations—exactly mirror your manual.**
- The update should be incorporated into each of the district’s Localized Policy Manuals as soon as practicable. If the district uses Policy On Line, you will need to notify us of the board’s action on Update 94 so that your district’s Localized Policy Manual as it appears on TASB’s Web server can be updated. Policy On Line staff may be reached by phone (800-580-7529 or 512-467-0222), by fax (512-467-3618, using the Update 94 Adoption Notification Form enclosed), by e-mail (pol-support@tasb.org), or through the Policy On Line Administrator Tools (<https://www.tasb.org/apps/PolicyAdmin>).
- Administrative procedures and documents—including formal (REGULATIONS), handbooks, and guides—that may be affected by Update 94 policy changes should be inspected and revised by the district as needed.

PLEASE NOTE: This localized update packet and the Update 94 *Vantage Points* may not be considered as legal advice and are not intended as a substitute for the advice of the board’s own legal counsel.

TASB Localized Policy Manual Update 94

District: Denton ISD

F (LEGAL) STUDENTS

We have revised the F section table of contents to rename FFAF, now subtitled Care Plans.

FFAF (LOCAL) WELLNESS AND HEALTH SERVICES
CARE PLANS

SB 27 from the 82nd Legislative Session required the commissioner of state health services, in consultation with an ad hoc committee, to create guidelines to help districts develop local policy for the care of students with a diagnosed food allergy who are at risk for anaphylaxis. The commissioner's guidelines may not require a district to purchase prescription anaphylaxis medicine or require the administration of anaphylaxis medication to a student unless the medication is prescribed for that student. These legal provisions were added to FFAF(LEGAL) at Update 91.

The law requires districts to adopt local policy by August 1, 2012, and the local policy must be based on the guidelines.

The *Guidelines for the Care of Students with Food Allergies At-Risk for Anaphylaxis* were made available on May 22 at <http://www.dshs.state.tx.us/schoolhealth/default.shtm> and state that the following components should be addressed in policy and administrative regulations:

- Identification of students with food allergies who are at risk for anaphylaxis
- Development, implementation, communication, and monitoring of emergency care plans, individualized health-care plans, and/or Section 504 plans for students with food allergies who are at risk for anaphylaxis
- Reduction of the risk of exposure within the school setting
- Training for school staff on anaphylaxis and emergency response to anaphylactic reactions
- Post-anaphylaxis reaction review of policies and procedures

The *Guidelines* include additional detail on each of the above components.

The enclosed policy, now subtitled Care Plans, incorporates these elements by requiring the district to develop and implement a student FOOD ALLERGY MANAGEMENT PLAN that includes general procedures to limit the risk posed to students by food allergies and specific procedures for when a student is identified with a diagnosed food allergy and is at risk for anaphylaxis.

The policy includes a requirement to develop GENERAL PROCEDURES on the following:

- Specialized training for employees responsible for the development, implementation, and monitoring of the district's food allergy management plan. The *Guidelines* explain that this training is more comprehensive than the general awareness training listed below and should address management of food allergies in the school setting.
- Awareness training for employees on the signs and symptoms of food allergies and emergency procedures employees should follow in the case of a student's anaphylactic reaction. The *Guidelines* include suggested elements of this training and provide information about online training and other training resources.
- General strategies to reduce the risk of exposure to common food allergens. The *Guidelines* include many strategies for the district to consider; the strategies implemented will vary from district to district based on local circumstances.

Explanatory Notes

TASB Localized Policy Manual Update 94

- Methods for requesting specific food allergy information from parents. Once a student is identified as having a food allergy and as being at risk for anaphylaxis, the district will need to implement procedures related to the care of that student.
- Annual review of the food allergy management plan.

In addition to these general procedures, the policy requires development of procedures for STUDENTS AT RISK FOR ANAPHYLAXIS, including:

- Development and implementation of food allergy action plans, emergency action plans, individualized health-care plans, and Section 504 plans, as appropriate.
- Training as necessary for employees and others to implement a student's care plan. This training will focus on the roles of various individuals in implementing the specific elements of the care plan and will include strategies to reduce the student's risk of exposure to the diagnosed allergen.
- Review of individual care plans and procedures periodically and after an anaphylactic reaction at school or at a school-related activity. The *Guidelines* emphasize that the review after an anaphylactic reaction would provide an opportunity to adjust the procedures and plans and ensure that any medication used during a reaction is replaced. Periodic review may be necessary, for example, when a student changes grade levels or campuses.

At DISTRIBUTION, the policy also requires the district to provide information about the policy and the food allergy management plan in the student handbook and to make the materials available at each campus.

On June 15, 2012, Policy Service will publish sample administrative procedures and forms in Update 41 to the *Regulations Resource Manual*, available on myTASB. The regulations are aligned with the local policy text and will allow the district to designate a district-wide food allergy coordinator, if any; indicate whether the district will create food allergy management teams at the campus level; and develop procedures to implement the local policy requirements.

Please note: Because the law requires districts to adopt a local policy so quickly, districts in which the local policy adoption process calls for two readings of a proposed policy may wish to implement the process for emergency adoption with one reading. [See BF(LOCAL)]

Your locally developed text regarding the district's ANAPHYLAXIS MANAGEMENT PLAN is recommended for deletion. Our recommended policy language at this code specifically addresses the district's obligations regarding students with diagnosed food allergies who are at risk for anaphylaxis. If the district has developed procedures for life-threatening allergic reactions brought on by non-food items, it is recommended that information be included in the district's administrative regulations along with the district's food allergy management plan.

Please Note: This manual does not have policies in all codes. The coding structure is common to all TASB manuals and is designed to accommodate expansion of both (LEGAL) and (LOCAL) policy topics and administrative regulations.

SECTION F: STUDENTS

FFAF
(LOCAL)

FOOD ALLERGY
MANAGEMENT PLAN

The District shall develop and implement a student food allergy management plan that includes the components below.

GENERAL
PROCEDURES

Procedures to limit the risk posed to students with food allergies shall include:

1. Specialized training for employees responsible for the development, implementation, and monitoring of the District's food allergy management plan.
2. Awareness training for employees regarding signs and symptoms of food allergies and emergency response in the event of an anaphylactic reaction.
3. General strategies to reduce the risk of exposure to common food allergens.
4. Methods for requesting specific food allergy information from a parent of a student with a diagnosed food allergy. [See FD]
5. Annual review of the District's food allergy management plan.

STUDENTS AT RISK
FOR ANAPHYLAXIS

Procedures regarding the care of students with diagnosed food allergies who are at risk for anaphylaxis shall include:

1. Development and implementation of food allergy action plans, emergency action plans, individualized health-care plans, and Section 504 plans, as appropriate.
2. Training, as necessary, for employees and others to implement each student's care plan, including strategies to reduce the student's risk of exposure to the diagnosed allergen.
3. Review of individual care plans and procedures periodically and after an anaphylactic reaction at school or at a school-related activity.

DISTRIBUTION

Information regarding this policy and the District's food allergy management plan shall be distributed annually in the student handbook and made available at each campus.
