

Livonia Public Schools

Director of Secondary Programs

DATE: February 8, 2023

TO: Andrea Oquist, Superintendent of Schools

FROM: Kevin Etue, Director of Secondary Programs and District Services

SUBJECT: LCTC GRANT PURCHASE

During the BOE Study Session of February 6, 2023, I, along with Phil Francis and Alison Smith, provided notification of an LCTC vehicle purchase through the 61c (vocational equipment) grant. Through the 61c grant, the LCTC Construction Trades program is looking to purchase an F550 or F600 Flatbed Truck that can tow equipment, including the Spray Trailer, to and from approved construction sites.

We are recommending Board of Education approval of a purchase order not exceeding \$81,000 as allowed through the 61c grant. The reason for a purchase order not to exceed \$81,000 is due to high turnover with vehicle inventory. Therefore, updated quotes and inventory may be necessary throughout this process. Thus far, multiple F550 and F600 truck quotes have been received and meet the specifications of hauling construction trades equipment to and from an approved construction site. All quotes received have been below the 61c grant max dollar amount of \$81,000.

I am asking for this item to be added for discussion at the February 13, 2023, Committee of the Whole meeting.

Thank you,
Kevin
