

Dear Diana,

Your daughter Candice left a lasting impression on our school district and will never be forgotten. Even in her absence Candice continues to impact young lives across all 12 of our villages. Candice's Books for Kids is in its tenth year and to date we estimate that this program, in memory and honor of your daughter, has given out over 10,000 children's books.

The program, which gives every child from birth to kindergarten a bag of children's literature on their birthdays, is one of the programs in our district that we are most proud of. Many of our students (and their parents) wouldn't necessarily have access to these early learning materials if it weren't for Candice's program. We hope that knowing that your daughter's contributions are still going strong in Alaska brings you a bit of comfort and joy.

With Caring Thoughts,

The Lake and Peninsula School Board
