April 2021 Technology Board Report
Sam Rigby

- **Completed Projects**
  - Our MOSAIC meal planning and tracking software server has been upgraded and moved in-house to reduce costs.
  - All CARES act technology has been deployed and is now in use.
  - The Perryville phone system has been replaced and upgraded to address call quality issues and aging hardware.
  - PEAKS - All technology has been prepped for PEAKS testing
- **In-Progress**
  - Upgrading iVisions Accounting server to provide faster access and long-term stability.
  - We are revisiting the LPSD website upgrade project that had been previously put on hold. The upgrade will include ADA compliance changes and re-organization of content.
  - Jon has been working with DRS to configure our Cachebox internet caching servers. These will help maximize our available bandwidth.
  - We are reviewing our district-wide cybersecurity procedures and requirements.
