

Unity School District - Board of Education

Board Policy 346

Testing Programs

Last Revised 10/9/2018

In order to best serve students' educational needs, information regarding students' social, emotional, and academic growth is essential in planning programming, lessons, and interventions.

The Unity School District shall establish and maintain a standardized assessment program which can be used, communicated and interpreted by school district employees, parents, Board of Education and members of the Unity School District.

The program will lend itself to:

1. A qualitative assessment of the educational program of the District for purposes of reporting the overall status of the District and charting the growth of its students, grades, schools and areas from year to year.
2. Appropriate reports to the Board.
3. Interpretation and use by the teacher, counselor and administrator so that the test findings will influence the guidance and counseling of individual children, and the development of a high quality curriculum.
4. Incorporation into the District's Response to Intervention (RtI) Program.

The Unity School District shall not discriminate in the methods, practices and materials used for testing, evaluating and counseling students on the basis of sex, race, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation or physical, mental, emotional or learning disability. Discrimination complaints shall be processed in accordance with established procedures.
