

SCHOOL BOARD MEETING REPORT

Board Meeting Date: 8-Mar-16

Superintendent: David Holmes

Administrator/Staff: Chris Pendleton

Type of Item: Informational Action

Please state your proposal briefly and clearly. What do you want the board to know, discuss, or decide?

I am asking permission to apply for a grant for new Personal Finance material and books from Dave Ramsey called Foundations in Personal Finance. The grant is from Pathway Financial Success. The goal is to receive enough funding to pay for a complete new set of material for all Senior Forum students at Hidden Valley High School. There are several pricing options from \$649.99 to \$5,499.99. The video on demand is an additional charge. The minimum needed is \$649.99, but would like to have the Basic PDF Pack at \$3,999.99.

Provide history/background information on your proposal:

The last set of Personal Finance books were purchased back in the 1990s and some of the material is outdated in the textbook. Some basic information about Foundations:

1. Foundations is currently being taught in 1 out of every 3 high schools in the US.
2. The curriculum incorporates blended learning and 21st Century Learning Skills.
3. It is the only curriculum that is led by money- management experts, which is why we take a clear position on why debt should not be used as a tool.
4. It is the only curriculum out there to focus on behavior change, rather than fact memorization.
5. The curriculum is built to be a full 90 day course and can be broken down into 12 stand- alone units if teachers need a more flexible curriculum.

List the advantages of your proposal:

To bring the level of the Personal Finance/Senior Forum material up to standard. See additional information from the company about their material.

List possible disadvantages of your proposal:

Not receive enough money in grant request to purchase enough books for a classroom set.

List possible alternatives that could also offer a solution to your proposal. Why were they not recommended?

Seek additional grants if needed.

Superintendent's recommendation(s):

Approve: Yes No

Traditional Print Solutions

Basic Teacher's Pack

The Teacher's Pack includes the DVD lessons, printed Teacher's Guide & Teacher's CD-ROM which contains our customizable test bank (along with over 100 activities and case studies) and 10 student texts which incorporate blended learning via our website: [www.FOUNDATIONSU.com](http://wwwFOUNDATIONSU.com) available for **\$649.99** (Retail \$899.99). Additional student texts are available as needed for **\$24.99** (Retail \$29.99).

Basic PDF Pack

The PDF Teacher's Pack includes the Teacher's Guide and CD-ROM which contains our customizable test bank software, DVD lessons, and a site license to create unlimited copies of the student materials available for **\$3999.99** (Retail \$4999.99). Some of the schools that are using our curriculum find that the time and materials-expense involved in copying the PDF student text costs as much as purchasing them from us at \$24.99 each (not to mention that the students tend to keep their bound student texts for future reference materials but often discard photocopies).

Digital Solutions

Premium eText Pack

The Premium eText Teacher's Pack includes the Teacher's Guide and CD-ROM which contains our customizable test bank software, DVD lessons and unlimited student eTexts accessible on all tablets, laptops and desktops (except Chromebooks) available for **\$5499.99** (Retail \$6999.99). This option is a one-time purchase and provides all of the materials needed to teach our 2014 curriculum for years to come.

Video On Demand - Add-On Option

This option can be added to any of the packages listed above and allows teachers and students to stream videos inside or outside of class time.

Access Term

Per Semester: **\$299.99** (Retail \$599.99)

If purchased with a Curriculum Pack: **\$199.99**

Fully Online Course (LMS-Based)

This is a fully online course that students can access throughout the day. Many teachers enjoy having all of their materials at one central location, on our BrainHoney platform where they can monitor progress, teach in a way that this generation prefers and have all of their grades completed online. The cost of this is **\$70 per student**.
