Re: 2023 Clean School Bus Rebates Program

Geneva CUSD 304 Transportation and Business Office are looking into potential reimbursement opportunities to support the new propane buses that were approved, and purchase order placed. To do so, we must have the 2023 Clean School Bus (CSB) Rebates Program School Board Awareness Certification form completed. While our approval in this program is not guaranteed, we are submitting this application to support the District's efforts to promote alternative fuel for transportation for our students.

We request of the Board of Education "Authorize Todd Latham, District Treasurer, to submit an application to the Clean Bus Rebated Program on behalf of Geneva CUSD 304."

We will notify the Board if the application is approved.
