Notes on Variances and Other Comments
October 31, 2024

Notes

- 1 These are normal variations in expenditures based on the ebb and flow of purchasing and payment cycles in a normal operating setting. These are not expected to have a significant budgetary impact for the entire year taken as a whole.

- 2 Monthly revenue and expenditure projections are not maintained as part of this report for the funds not included in the state budgetary process. Revenue is posted as earned and expenditures are processed as items are received and/or projects reach completion in compliance with regulatory basis accounting principals.

- 3 In a typical month, we expend more than we receipt given the nature of our funding cycle. The exceptions to this generality are the months when we receive our full property tax distributions - June and December.
