Re: Bus Wash Replacement – General Fund

I would like to request adding an agenda item to the Monday, March 16, 2020 Committee of the Whole meeting to discuss the approval to purchase a new Bus Wash System from Hydro-Chem Systems, Caledonia, Michigan, for a total cost of \$141,073.00. This is a touchless system, including a vehicle's undercarriage, which can be utilized by every size and type of bus the District owns. Plus, the District's trucks and utility vehicles can use this touchless vehicle wash. The current bus wash is approximately 25 years old and no longer functions as originally installed. The new system will give us greater use capability, expand the types of vehicles we can wash, and save dollars overall.

Pricing is from the State of Michigan Mi-Deal purchasing consortium and fulfills the Boards bidding obligation. Please let me know if there are any questions. Thank you.

Thank you
