Background Information:

A Public Hearing is required to review the Financial Integrity Rating System of Texas (FIRST) report and answer any questions from the public.

The Texas Education Agency developed the Schools FIRST (Financial Integrity Rating System of Texas) accountability system for the Texas school districts in response to Senate Bill 875 of the 76th Texas Legislature in 1999. The primary goal of Schools FIRST is to achieve quality performance in the management of school districts' financial resources, a goal made more significant due to the complexity of accounting associated with Texas' school finance system. It ensures that Texas public schools are held accountable for the quality of their financial management practices and that they improve these practices. The system is designed to encourage Texas public schools to better manage their financial resources to provide the maximum allocation possible for direct instructional purposes.

Fiscal Implications:

None
