Updated in response to 105 ILCS 5/27-8.1(2), amended by P.A. 99-927, eff. 6-1-17. The Illinois Department of Public Health is to develop rules to implement these new screening requirements and revise the Child Health Examination form. The health care provider must only record whether or not the social and emotional screening was completed.

Consult the board attorney about whether the presence of developmental or social and emotional screening information on the Child Health Examination form triggers child find obligations under the Individuals with Disabilities Education Act and/or Section 504 of the Rehabilitation Act of 1973.
