- We have the beginnings of an American Sign Language (ASL) club. Students have been meeting over some lunches and are slowly developing the right system to teach one another this amazing skill.
- Our Knowledge Bowl team of all 10th grade students placed 9th of 20 teams at subsections which is a significant improvement from their prior competitions. These competitions are extremely challenging.
- This past week we celebrated National School Counseling Week and thanked Ms. Routh for her hard work and dedication to Medford High School.
- Also this month is Career and Technology month proclaimed by Gov. Walz; so we are celebrating that as well.
- Gopher Conference Honor Band - Eleven of our high school student musicians performed this weekend at the 3rd Annual Gopher Conference Honor Band and Choir. They are all talented leaders both within our school and our conference. Congratulations to these students for being selected and for a wonderful performance!
- More great High School happenings. Our one act team finished 1st at the sub sectional competition and 4th at the Section Championship with a very young team. Our team finished one point behind 3rd. Really great performances.
