

Thorne Bay School
April 2019
Board Report

We had a good turnout for our parent teacher conferences, many parents and guardians took the opportunity to come in and see how their students have been doing. Thanks for coming and showing your children how important education is to you by being here.

All the state testing is complete! Amanda Blankenship did a great job keeping record of everyone that needed to be tested on the "Peaks" testing. Thanks to Airica and Caitlyn for setting up the computers and to the teachers and aides who helped make this a seamless testing session. Finally Thanks to Amy McDonald our testing coordinator for countless hours put in for the students here at Thorne Bay and across the district. Good job students for taking time to do your best!

Our K-2 and 3-5 students have had the opportunity to take swim lessons over in Craig. Thanks to the district for making this a possibility for our students. It is so important that they learn these skills for safety throughout their lives.

Steam Week starts Monday April 15th and our students are excited to participate in all the activities!! Thanks to Nick and all the staff for the many hours of planning and preparation for this week! What a great opportunity to get together with students across the district and learn through doing and experiencing!

Community clean up and earth day celebrations will be on Thursday morning and afternoon. Battle of the Books celebration will be in the afternoon as well as Phlight Club starting that afternoon at 4:00. Put on your seatbelts this week is going to be an incredible ride for everyone who participates!
