

Good afternoon,

My name is Trishelle Kailee Okpik. I attend Barrow High School. I am currently 16 years old and a sophomore. My whole high school experience I've been a part of a team or a club. I'm a cheerleader for both football and basketball. I am also apart of yearbook. I have always strived to put my best out. I've never put half of my work out there. Being a student representative would change a lot for myself. I am a very social person. I enjoy talking to everyone. It helps me get more of an idea of how they are. Hearing how much they dislike many things in our school system has me wondering if these opinions will ever change. Well I want to give them a reason to want to attend our school. There's something that we all dislike about our own school. I want to be able to represent those who don't express their opinions because they believe it doesn't matter. Being the representative means that I will be voicing everyone's opinion, because everyone deserves to be heard. If I get this opportunity, I will make sure every kid in Barrow High school is heard. Anyway, I can benefit the students in my school within my years, and even the in-coming students. I'll be happy. Thank you so much for considering me to be the representative of my people. If I get this responsibility, I won't let anyone down! My name is Trishelle Kailee Okpik. I appreciate this opportunity.
