Re: Board Report

This summer we have had a great showing of athletes coming to various workouts. We have had open gym for girls' basketball and volleyball as well as summer conditioning for football. The coaches that have given their time to prepare the students for this upcoming year are greatly appreciated. This effort and commitment from the coaches and especially the athletes will only continue to build the culture of Homedale sports into the elite school in the SRV and potentially the state.

I am very excited for this upcoming year. We have quite a few new coaches looking to help and build upon the athletics at the middle school. As we begin a new year in athletics with football and volleyball we look for all athletes to grow in skill and to compete at a high level within the SRV.
