Re: Digital Subscriptions - Screencastify

Screencastify

Screencastify is a paid subscription for a Chrome extension that will allow users to record, edit, and share videos from their computer screen. Videos are then easily shared through email, embedded code, Google Classroom, YouTube and more. This tool was widely used by staff for remote learning. This tool will assist in flipped lessons, professional development, etc. Over 6,680 videos were created last year. The company has changed from providing full district subscriptions to per teacher subscriptions. Staff who made 10 or more videos last year will be provided with a subscription for the 22-23 school year.
