

CONSIDERATION OF APPOINTMENT OF AN OFFICIAL TO CALCULATE THE DISTRICT'S EFFECTIVE TAX RATE

Action Item:

Every school district is charged with calculating an effective tax rate each year. If the person/official who is designated to perform that task is not associated with/employed by the school district, then the Board should officially appoint that individual through Board action. Our effective tax rate is routinely calculated by the local county tax assessor/collector's office, which is handled by Ms. Karen Jones.

Recommendation:

I recommend the Board approve the District's effective tax rate for next school year to be calculated by the local tax assessor/collector's office and to be distributed to the appropriate entities as required by law.
