2022-2023 Plans for Early Childhood Literacy & Mathematics

In order to ensure student academic achievement targets are met, a specific professional development plan for instructional support has been implemented across district elementary campuses:

- ★ HB 3 - Reading Academies certification for all **2nd, 3rd, K-3rd Resource grade teachers, new Kinder/1st grade teachers, and elementary principals.**
- ★ NWEA MAP Assessments for all K-3 students in Math and Reading administered at beginning, middle, and end-of-the-year
- ★ **Scheduled PLCs** targeting TEKS instruction, benchmark/checkpoint data-analysis, and student engagement instructional activities
- ★ Professional development in the implementation of research-based learning platforms
- ★ Periodic PLCs with school administrators
- ★ Progress monitoring systems at the district level
- ★ Identification and delivery of instructional support specific to campuses who are at the risk of not meeting Closing the Gaps Performance Targets

As of Oct 2022

2022-2023 CCMR Plans

Although we continue to find avenues to provide students with opportunities to graduate college, career and/or military ready, remote testing is limited by the requirements testing companies have set.

The following plans to provide students with more opportunities will resume when parents allow their children to participate in face-to-face learning on a regular basis:

- ★ All 8th grade students through their College & Career Readiness (CCR) course will be given the opportunity to take TSIA-2
- ★ TSIA-2 testing will continue throughout all High schools
- ★ Based on the Version 3 IBC certification list (released 9/2022), the CTE Dept. is currently conducting PLC's with campus staff to align the NEW IBC's to the current Programs of Study offered at UISD

CCMR is an important part in the state's accountability system and UISD students who further their college, career or military participation post-secondary will generate funding for the school district.
