

Cafeteria Monthly Report

September 2021

The cafeteria completed the SSO Audit and completed the necessary documents and we were approved. The SSO program is operating according to the USDA guidelines.

We have been working hard to add new menu item despite all the supply shortages. We have implemented a full salad bar for the high school and staff to be put out every other Friday.

We have been feeding average of 400 breakfast and lunches daily. It keeps us busy and happy knowing that the students are getting nutritious meals to help them make it thru their day.

The Thanksgiving Luncheon has been planned for Nov. 19th. We will be planning to get all the food items we need to make that a special occasion.

Thank you,

Yolanda Rueda

Food Service Manager
