

TRANSPORTATION BOARD REPORT - SEPTEMBER 2017

SUBMITTED BY: WAYNE HALL

We are getting some of our buses repaired on recall status.

We are in the process of getting ready to hire a new driver.

Our bus driver's been working on trying to keep the buses and wash stall clean. They been helping the Truant officers on a daily basis which seems to be working out good.

The mechanics been keeping busy working on the buses and district vehicles. The driver's write up the buses/vehicles when needed and the mechanics get right on it and try to fix the problem. They are doing a good job keeping up with the write ups.

The office staff been working on entering bus registrations, viewing video's from the buses that have referrals to find out what happened on the buses-behavior issues, working on billing , driver's time and trips.

The propane tanks are up and running in town and out in Babb. The bus garage doors will be getting serviced by our mechanics shortly.

The district vehicles are getting checked out weekly so if you need a vehicle try to get your paperwork in to us 2 weeks in advance if possible with a budget number and Supervisor signature. Same for activity trips.

We been having daily morning meetings they are going good everybody is on the same page and questions are answered right there.

We had a total of 51 activity trips for the month of September. This concludes our report.
