Spring Break 2027 Costa Rica Ecoadventure Proposal: "Discover Costa Rica"

Purpose:

The purpose of this trip is to give seniors (and possibly juniors depending on the numbers) the opportunity for educational and adventurous travel during their spring break. As we journey to Costa Rica for 8 days we will develop environmental awareness, explore ecotourism practices, and gain an appreciation for some of Earth's most diverse ecosystems—all while finding fun around every corner. We will visit three distinct areas of Costa Rica and participate in both cultural and ecological learning opportunities throughout the trip. The trip will include a great deal of adventure such as white water rafting, ziplining, canoeing, and snorkeling. Some cultural and science focused components will include visiting coffee and chocolate farms as well as visiting several national parks, each offering a new view of the differing unique ecology and geology of Costa Rica. We will eat traditional foods and be immersed in the culture of Costa Rica.

Finally, staying true to our Centennial travel program we hope to instill a love of travel, expand world view, and help students become more independent. We will be using LEAP up until spring break to learn about each other, to grow closer as a group, to educate ourselves about the places we will travel, and to learn how to prepare and become a lifelong traveler.

Dates:

We will schedule the trip so it corresponds to our scheduled 2027 spring break at CHS. The trip will be approximately 8 days.

Itinerary:

A proposed itinerary can be made available upon request or on the EF tour site by searching "Discover Costa Rica". It may fluctuate a little depending on availability. I have included a flyer.

Target Students:

The target audience for this group will be current seniors that are interested in travel coupled with adventure and who would like to learn more about Latin American culture, geography, biology, and geology. The trip will appeal to students who would enjoy something more robust than a simple beach vacation. Many former travelers and those that have always wanted to travel but couldn't attend our summer trips will look forward to this opportunity.

Travel Arrangements:

We are currently in the planning stages of this trip but we would fly out at the start of spring break and return at the end, but we will not miss school days due to travel. During the trip we will travel on a coach bus from location to location. We will also travel by boat and other forms of public transportation. We will have a local tour director with us 24 hours a day.

Cost:

The price is approximately \$3700 for an 8 day trip. This includes flights, bussing, hotels, and three meals a day while in Costa Rica. Students will have a chance to fundraise as soon as the trip is approved and they are signed up. The company we will travel with, EF, provides a variety of payment plans if students sign up within a certain date to make it as affordable as they can for families. This price includes everything but tips for the tour directors and any souvenirs the students want to buy.
