Toolkits Requested

Arizona, Illinois, Indiana, Kansas, New Mexico, Tennessee, Texas, Virginia & Wisconsin

LEVEL	Quote
Elem	<p>He enjoys helping the teachers, enjoys teaching his friends, and loves sharing ideas on how we can solve social problems. (Christian – PreK)</p>
Middle	<p>I know the school year has just begun, but Sam is such a unique student. Sam is so eager to be a teacher that he has a classroom set up at home where he practices teaching and emulating his current and former teachers. He has a generous heart and is always willing to help his peers. I think this program is exactly what he needs to further cement his commitment to a career in education. (Sam – 7th grader)</p>
High	<p>I consistently catch her teaching her peers lessons over really advanced material, effectively. She has that innate ability to speak a language tailored to the unique student she is working with. I can explain further if needed. (Madelyn – 12th grader)</p>

10 Teachers Nominated 1 DHS Student

2017 DHS Graduate – TWU Student

Betty is an IB full diploma candidate. She loves sign language (she has deaf siblings) and wants to be a sign language or deaf education teacher. She is a mentor to others in the IB program and certainly has a positive disposition most all of the time. She would be a great home-grown teacher for DISD!

Betty is a wonderful young lady that desires to become a kindergarten teacher. She will make a tremendous educator, especially with young children. Her pleasant and patient demeanor will not only serve her well in that position, but she will be able to cultivate a child's appreciation for school and learning. Betty's students will be excited to come to her classroom everyday.

Betty is one of the kindest and most pleasant students I have ever had the privilege of teaching. She nurtures those around her, big and small; she has a smile and a kind word for all. In addition to her personal demeanor of kindness, she also loves to learn. She has an avid curiosity that motivates her to explore subjects of personal interest, but she will also apply herself to new subject.

I am eager to recommend Betty as a candidate for the Teach Denton program. Betty was an excellent student cognitively as well as the quality of humanity evidenced by her consistent care and compassion for other. Betty dedication is demonstrated by her time as a volunteer and teacher at our Ann Windle School. Betty, I am confident, will make a tremendous kindergarten teacher and will be an asset to our district, as she has been to the Denton.

Betty is an excellent young lady with exceptional academic and social skills. She is very passionate about the world of education and she is a natural leader. Betty is a model student, and her positive nature always brings light to any situation, adding quality to the world around her. She is very capable of creating and expressing new and inspiring ideas effectively. Please, let me know if you need further information.

Betty has the most inspiring, caring, motivational spirit that is contagious. She is committed, responsible, a leader and team player. She makes an impact on all around her. She is open-minded and thinks out of the box. She is honest, realistic and understanding. Her patience with others or situations are beyond mature. I have seen her teach dance choreography through the IB Dance Program and she was a natural. I know that she will be one of the top educators in the future.

Betty is a caring, thoughtful student. She models behaviors she expects others to use. She can look past a lesson to help others learn, not just present the material. As a mother of a 1st grader diagnosed with ADHD, she was my go-to sitter for years. She matches his energy, and her patience allows her to see past "not listening" and "can't sit still" to help him redirect. So yes, if she can handle my former kindergartner, she is well suited to help those in her future classroom.

Betty is an outstanding young lady that is endlessly helpful as an aide to several different teachers on the DHS campus. In addition to this, she is enrolled in the rigorous International Baccalaureate Diploma Program at Denton High School. Her goal of being an educator was one of the first things that I learned about Betty. She shows empathy and temperament towards others, and is exactly the type of young lady we should be looking for as a teacher in DISD.

Betty is a student who very much enjoys helping others. She is accepting of and loving towards everyone she meets. She is self-motivated and is a hard worker. She does not give up when something is difficult. She is trustworthy and of the highest integrity. I believe that she would be an excellent addition to Denton ISD and that she would serve children in an exceptional way.

Betty plans to attend Texas Woman's University in the fall and has already been accepted. She is so excited to major in child education so she can continue with her dreams of becoming a kindergarten teacher. Grace has a broad experience with children (including volunteering and teaching at Ann Windle), a very strong desire to teach, and her experience in the International Baccalaureate Diploma program has prepared her for the ultimate collegiate experience.
