**Re: Approval of Purchase of Tools and Equipment for Maintenance and Grounds**

---

It has been about one year since Aramark Facility Services started managing Coppell ISD’s maintenance and grounds departments. Since that time, they have made a great deal of progress in improving the effectiveness and efficiency of the departments. As part of their initial assessment, Aramark has noted that most of the maintenance and grounds tools and equipment have not been upgraded or replaced in many years, including safety equipment. Replacement and additional items needed include items such as, but not limited to:

- Single man lift (19-25ft)
- Hammer and Various Drills
- Tool Boxes
- Wet/Dry Vacuums
- Fans
- Skillsaws
- Various Sizes of Fiberglass Ladders
- Infrared Thermometers
- Refridge Leak Detector-High Sensitivity
- Vac Pump
- UniWeld MAPP Gas Torch Kit
- OPERGEN Portable Coil Jet Cleaner (For Plumbing Clogs)
- Sewer Pipe Inspection Camera
- Band-saw
- Circuit Breaker Finder
- Arc-Flash Safety Protect Kit 8 CAL
- Electrical Insulated Glove Kit
- HardHat-Face shield combo kit

Fall Protect Kit  
Large Batwing mower  
72in Stander Mower  
Drop Deck Trailer  
Honda Portable Generator 1800w  
Armada Line Locater  
20' Chainsaw

While none of these items individually require Board approval to purchase, in aggregate the total will exceed the \$100,000 purchasing threshold requiring Board approval. If approved, Aramark will use their vast national purchasing power to ensure we achieve the best pricing possible for each item. Aramark will purchase these items for Coppell ISD and pass the cost along to us with no markup. Coppell ISD will own all assets purchased. We estimate the total cost of all items to be approximately \$250,000.

We have plenty of dollars allocated for miscellaneous tools and equipment in the 2023 bond program to cover these costs.

**RECOMMENDATION: That the Coppell ISD Board of Trustees approve Aramark Facility Services to purchase for Coppell ISD various tools and equipment for the maintenance and grounds departments at a total cost not to exceed \$250,000 in aggregate.**
