March 10, 2026

Distinguished Board Members,

On February 25, 2026, the Technology Department sent a request to multiple vendors for quotes for 155 Chromebook Plus models. We provided the option of bidding ASUS and/or Lenovo models, but requested devices with 16 GBs of RAM and touchscreens. The requested quotes were due on March 9, 2026.

We received quotes from four vendors. The Technology Department evaluated the quotes on March 9th. The quotes are included in the packet for this item.

After careful review and deliberation, we found Y&S Technologies quote provides the greatest value per device meeting our requested specifications.

Our recommendation is for the Nye County School District Board of Trustees to approve the purchase of 155 ASUS Chromebook Plus CX34 devices from Y&S Technologies.

The recommended purchase comes to a total of \$109,740.00, which is within the portion of the technology budget reserved for our five-year refresh cycle.

Sincerely,

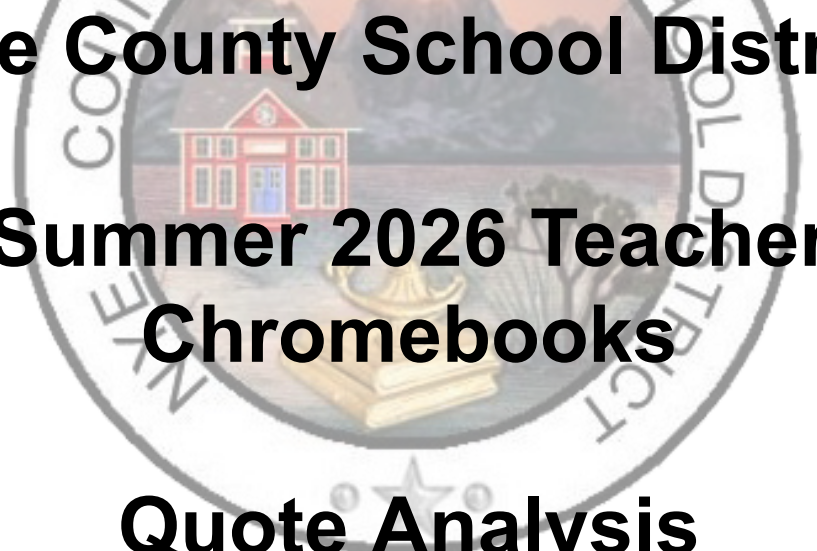

A handwritten signature in black ink that reads "Robert Williams".

Robert Williams

Overview

The Information Technology Department sought comparative quotes for 155 Chromebook Plus devices to refresh teacher hardware. To ensure a five-year functional lifespan, the request prioritized 16GB of RAM, 14" touchscreens, and a "Chromebook Plus" designation .

Analysis

- Asus Chromebook Plus CX34 (16GB RAM)
 - Performance: This device is the direct successor to the model purchased last summer. It features 16GB of RAM and an Intel Core 5 processor, which provides the necessary overhead for teacher multi-tasking over a 5-year period. Vendor
 - Comparison:
 - Y&S Technologies submitted the lowest per-unit price (\$708.00).
 - Archangel is a close second (\$709.39)
- Lenovo Chromebook Plus 14IRU10 (16GB RAM)
 - Design: This is a "2-in-1" convertible (Flip) model. While "Flip" was not a requirement, it is a premium feature for classroom instruction.
 - At \$817.34 (via Bluum) this is roughly \$109 more per unit than the Asus.
