DRAFT (7)

Shorewood School District Lake Bluff Elementary Principal Hiring Process November 2014

Lake Bluff Elementary School is a unique learning community with an established and well-embraced school culture that produces quality results. Teacher leadership is fostered and expected and is evidenced through input in decision-making and ownership in all aspects of school life.

The principal facilitates this culture to continually expand a healthy, safe and inclusive school community. The principal also focuses on growth for all learners and supports new and engaging learning practices. Lake Bluff is currently exploring the Expeditionary Learning model. Lake Bluff is also committed to Character Education, Project-based Learning, and full inclusion of student with special needs. Principals with experience in these programs and models are preferred.

The Principal is responsible for instructional leadership in the school and for all day-to-day school operations. The principal also provides oversight during all school functions and after school activities.

The principal serves as a member of the Superintendent's Administrative Team and shares in the responsibility of implementing the district mission and vision.

The hiring process to identify a highly qualified and experienced individual to fill this role is inclusive and driven by consensus. The process will include a series of sessions with staff, parents, and students to identify the characteristics they are looking for in the next principal. These characteristics will be used in the interview process.

The interview panel will consist of teachers, administrators, community members, and parents. Finalist(s) will be presented to the school community where the community may ask questions and provide input. The interview panel will use a consensus process to identify top candidates, discuss results of interviews, review community feedback, and make a final recommendation.

Date	Process Step	Note
