Celebrations

Holiday Fun

The elementary students enjoyed many activities the week before break.

- **Santa's Workshop-** Students had the opportunity to shop for their families.
- **Winter Festival-** Students selected three holiday-themed activities from a menu of eight options. Activities included ornament making, a dance party, karaoke, holiday card making and coloring, board games, engineering challenges, and Minute to Win It games.
- **Cookie decorating-** Each class was provided with supplies for students to decorate cookies

Thank you to the many volunteers who supported our holiday activities, and to the Mendon Community Secret Santa for generously donating the funds that covered supplies for the Winter Festival and cookie decorating!

Book Blast

We are preparing to launch our 3rd Annual Book Blast on **January 27th**. The Book Blast is a school-wide reading event designed to promote a love of reading and increase student access to books. Through family and community sponsorship, students are able to earn free books while helping support classroom and school resources.

Community Building Model

The Leadership Team has begun developing a comprehensive model that outlines existing community building (PBIS) components as well as those currently in the early stages of implementation. Components include:

- School-wide practices
- Preventative classroom practices
- In-class effective responses to behavior
- Out-of-class skill building
- Resolution, reconnection, and additional support
