

DU PAGE ELEMENTARY SCHOOL DISTRICT 13
BOARD OF EDUCATION
Bloomington, Illinois
Regular Meeting January 24, 2022

FOR DISCUSSION:

Subject: Student Enrollment Projections

In August of 2017, Dr. Charles Kofron presented the final report on the demographics for the school district to the Board of Education. For the past several years, the District has referred to that data to help anticipate needs and resources necessary to ensure high quality student services. Due to the date of the report and the time since, it may be time to look into the composition of a new demographic report.

Accurate student enrollment projections help in the planning and development of the school district budget as this data helps in the determination of the size of the staff, the amount of instructional materials to anticipate purchasing, and how to otherwise accommodate student learners.

Mr. Reiniche has put together the projections to be shared this evening for your review. I would be happy to answer any questions members of the Board may have at this time.
