Subject: Illinois Emergency Management Agency's – Illinois School Security Grant Application
Date: February 19, 2014

I would like to request from the Geneva CUSD #304 School Board, authorization and approval to prepare and submit the application for Illinois Emergency Management Agency's (IEMA) – Illinois School Security Grant.

The purpose of the Illinois Security Grant Program is to establish a baseline security level at each eligible public school located in the State of Illinois. Applications are to outline a specific building district-wide or campus-wide plan to enhance security. We may submit only one application as a K-12 school district. Successful applicants may be awarded funding up to, but not exceeding the maximum amount designated in the application (based on school's student population).

I am recommending authorization to submit this IEMA grant application to help offset costs associated with securing front entryways including door hardware, protective window film and visitor management systems.
