

## BOILER CHECKS/MAINTENANCE

\$45 per daily boiler checks- checks will be completed once every 24 hours. I plan to check the boiler either on my way to work in the morning or on my way home from work.

\$45 per hour for pre-approved maintenance (boiler tear down post heating season, boiler prep pre heating season. etc)

I will fill out and submit time sheets for these boiler checks and hours worked.

I am not to be the first point of contact in the event of boiler alarms. It is at my discretion to take on basic repairs if needed. If I am unable to or choose not to, the district will need to contact another company for boiler repair.

This agreement can be withdrawn at any notice by myself or the district in writing.
