Date: October 25, 2022

Tim – The following is our **BUDGET** proposal for replacement of 32 and modification to 9 Climatemaster units at the subject project.

The following scope is to replace 32 existing vertical and horizontal units, greater than 1 ton in size with new units with factory Climadry reheat option for humidity control. The ¾ ton, 1 ton, and 8 ton units listed below are not available with a Climadry option, so we are suggesting electric reheat to provide humidity control for those. Pricing is for materials only, not including labor to install.

ITEM 1: Climatemaster

Tag	Model		New Model W/Climadry
HP-110	TTH064	Replace	TEH064
HP-304	TTH038	Replace	TEH038
HP-209	TTH026	Replace	TEH026
