RE: Approval of Dallas County Assessor Collectors Contract to collect Coppell ISD property taxes

The District received notification from the City of Coppell that fiscal year 2014-2015 would be the last year it would collect school District property taxes. The District has researched other viable solutions regarding tax collections and concluded that Dallas County Assessor Collector is the best solution.

The County charges \$1.30 per parcel with an estimated annual cost of \$23,457. There will be no change in the District's delinquent tax collection attorney, Linebarger Goggan Blair & Sampson, LLP.

The District's attorneys have reviewed the proposed contract, and the few items noted have been resolved. Additionally, this is the same contract utilized by all governmental entities for which Dallas County collects property taxes.

Recommendation: Coppell ISD's Board of Trustees approve the contract as presented.
