

## **TRANSPORTATION BOARD REPORT FOR NOVEMBER 2023**

**SUBMITTED BY: FRANCIS W BULL CALF**

Hi all, this is my board report for November. As for the mechanic shop they have completed 35 workorders, stemming from fuel pumps to changing 24 bus tires, 20 traction tires and 4 steering tires tune ups and all types of service jobs, they also updated the wiring to the plow and the sander. We had to purchase a new sander because the old sander would have costed more to repair then it was worth Our MCI bus that was in the shop at Cut Bank auto is finally finished just waiting for a DOT inspection to be done. We are getting all rout buses ready for the December DOT route bus inspection.

We have submitted 2<sup>nd</sup> quarter bus reimbursement for 11-1- 23 to 2-1-24 and doing bills.

As for the trip personal they had 67 trips which were field trips, sport trips speech and debate, volleyball, and college visits. Now that the roads are getting into winter months all the newer bus personal are not taking trips through the pass until they get more driving experience, and only the experience drivers will be taking these trips on the west side.

So for the disciplinary department, there were 55 wright ups and 4 bus removals to help with all these disciplinary situations we have been continuing our bus good behavior incentives, and we started going to the schools with our robotic mini bus called buster the bus that has a controller u can talk through and drives whare ever u need it to go, this little bus really gets the attention of everyone.

This is the transportation report, Thanks for reading God bless you all.
