### **Principal's General Narrative:**

We have finished up summer school. 10 students attended in high school with 8 credits being recovered by 7 students. Three students did not complete the coursework required in Plato but the work they did will be saved and they should be able to finish it up when school starts back up. A senior from the 06-07 class who did not graduate passed the remaining ½ semester course that was needed and will receive a diploma.

Sixteen junior high students attended with thirteen meeting the expectations. The three students who did not will have another chance to retest in a couple of weeks after they have spent some time working with the TAKS study guide and we expect and hope that they will meet the requirements at that time.

All new textbooks and ancillaries/consumables for the 2007-2008 school year have been ordered and should start arriving in the next few days,

The maintenance and custodial staffs are getting things repaired and polished up for next year and deserve to be recognized for the great job they are doing.

I and all the members of the high school and junior high appreciate the time, effort, and wisdom that school board members give on our behalf. We recognize that without the great leadership from the school board and Mrs. Renken our direction of continued and greater success would not be possible.
