

Technology Report

May, 2014

This month the Technology Department worked on the following projects:

- Assisted campuses with STAAR testing.
- Assisted OHS in setting up sound and projection for academic banquets and band concert.
- Assisted OES in issues with card readers on entry doors.
- Reset power supply and reset electricity to servers at OES.
- Met with Ener-Tel to solve connectivity issues with alarm systems.
- Worked with ISS students on computer issues.
- Worked with faculty on laptop issues, required several to be rebuilt.
- Worked with Tel-Pro fixing phone issues. They are in process of bidding a phone upgrade that will allow seamless communication between all campuses on all phones.
- Worked with Maintenance personnel on computer and A/C issues.
- Worked with Arrow fire and security in replacing part of the alarm sprinkler system at OES.
- Met with Ener-Tel and reviewed camera needs. They submitted a bid proposal to upgrade our DVR systems into one system. See attached bid proposal.
- Rebuilt two serving line computers at OES and fixed connectivity issues in the OES cafeteria.
- Worked with Region 15 connecting several distance learning workshops and virtual field trips.
- Worked with faculty and staff meeting their technology needs.
