**Submitted By:**

Kimberly Smith

**Background Information:**

The Metro Elevator proposal will modernize and replace the existing three-story hydraulic unit on the stadium press box that was installed in 1999-2000. This modernization will address all existing performance issues and bring the unit up to current codes as required by the Texas Department of Licensing & Regulation. Existing interior cab finishes (VCT floor tile, ceiling tile) will also be replaced separately to enhance the aesthetic aspects of the aging unit.
