

Curriculum, Instruction and Assessment March, 2026

Professional Learning

Campuses participated in campus based professional learning and teacher team planning earlier in February.

Plans are being developed for summer, 2026 as well as August, 2026 when teachers return. Teacher teams are being developed to work on curriculum and assessment alignments this summer and administrator leadership days have been scheduled.

Texas Reading Academy is winding down for this year's cohort and a new cohort will begin in June. We are now only training new teachers and any teacher who would like to participate from grades 4-5. It is not required for grades after third grade, but we have had some ask to join.

Texas Math Academies will be required to implement the beginning of the school year 2026-2027. This will be similar to the reading academies, but it will not be as many days. We are currently working on cohorts to begin this process for K-3 teachers and administrators.

Curriculum and Instruction

K-5 teachers will be implementing a new reading adoption beginning August, 2026. A committee was formed and they have selected the curriculum they feel best suits their needs.

Assessment

- We have finished TELPAS testing with our Emergent Bilingual students.
- Spring Reading Language Arts Mock Benchmarks for grades 3-6 took place on March 3, 2026.
- Spring Math Mock Benchmarks were on Tuesday, March 10, 2026.
