Re: Request to work with Streamline Architects on second floor west flooring and classroom refreshes

Background Information

The FY26 budget includes \$400,000 for flooring and classroom refreshes (flooring and furniture) in the second floor west hallway.

Administrative Considerations

Facility Director Dave Bisby has requested permission to work with Streamline Architects (one of our approved District architects) on this project. The work is expected to be completed summer 2026. Streamline Architects' fees for this project are estimated to be \$10,494.

Options Considered

The District has several approved architects which are used depending on their strengths in relation to our various projects. Streamline Architects has been very successful with this type of project including the chemistry lab, auditorium, and upper gyms.

Funding Source

Operations and Maintenance Fund

Recommendation

We recommend the board approve working with Streamline Architects on the second floor west flooring and classroom refresh project.
