Hi,

I would like to bring 7-12<sup>th</sup> grade students that have at least a C in all of their classes on a trip. We would leave the school Thursday morning November 3<sup>rd</sup> and Drive to St. Paul to experience the exhibit *Our Home Native Minnesota* at the Minnesota History Museum. We then would take the kids to *Owamni* a restaurant that has a James Beard award winning chef that has a menu of Indigenous food. We would then spend the night in the cities and drive back to school the next morning. This trip would be fully funded with money through our department and not only a culturally enriching experience but also a good reward for working hard to keep grades up.
