

School Board Meeting:

June 9, 2009

Subject:

Dashboard Indicators

Presenter:

Pam

SUGGESTED SCHOOL BOARD ACTION:

Report only.

DESCRIPTION:

Over the past year, a subcommittee of the District/Community Teaching & Learning Council created a draft of the Dashboard Indicators for the school board to consider examining on an annual basis. Input was solicited from the larger DCTLG group, as well as the administrative team. During Tuesday's workshop, we will have an opportunity to discuss the indicators and provide input to our subcommittee for any possible changes or revisions you would like considered.

Once we have direction on the Dashboard Indicators from the school board, administrators will set appropriate targets in each area. We would bring the indicators and the respective targets back to the school board for approval this fall.
