

PRESENTATION OF THE RESILIENCE SCHOOL SUPPORT PROGRAM

Ector County ISD applied for a Resilience School Support Program (RSSP) grant during the summer of 2020. As a result, the Texas Education Agency provided ECISD with a technical support provider, which supported our district with the implementation of virtual learning during the 2020-2021 academic year. The technical support provider is Education First. Education First is a mission-driven strategy organization with unique and deep expertise in education improvement. They focus on supporting school systems with equitable and inclusive initiatives and strategies for school improvement.

We are happy to announce we applied and were awarded year two support through the RSSP grant. Dr. Nájuez, Associate Superintendent of Curriculum and Instruction will share the new goals of the RSSP grant. The focus for year two of the RSSP grant is Recovery and Acceleration for the 2021-2022 school year.
