Secretary

## Altamont Elementary 2022-23 PBIS Plan

1. To go along with our focus on student driven learning, students will be setting their own behavioral goals. As they work toward those goals, they will keep data that will qualify them for a Reward Field Day in the spring.
2. Our Longhorn Best program will have a weekly drawing as well as daily shout-outs over the announcements. The students will put red tickets in a jar for the drawings as they see other's doing good. We will have drawings during monthly Longhorn Best Assemblies.
3. Teachers will do: Caught Doing Good cards for students weekly. Those cards as well as a picture of the student will be hung in the hall by the office so visitors can see the student. At the end of the week, they will be sent home with the student for parents to see.
4. Teacher PBIS will also be done, to encourage teachers to incorporate things that the district has trained us in, such as: thinking maps, small group phonics groups, PLC data in to admin on time, etc. The teachers with the most points at the end of the year will go on a reward activity.
5. Teachers do a Friday Celebration that we display in the faculty room each Monday.
