

IMMUNIZATIONS

Prior to first entry into school, a child must be fully immunized as required by law against diphtheria, pertussis, tetanus, polio, measles, rubella, mumps, hepatitis A, hepatitis B, and varicella. Children over the age of 12 shall not be required to be immunized against rubella (4 AAC 06.055).

Any student who does not show evidence of required immunization or who does not present a letter or affidavit from the parent/guardian or physician, physician's assistant, or advanced nurse practitioner stating reasons for exemption based on medical reasons or personal beliefs, shall be excluded from school until such time as the immunization is obtained or affidavit of exemption has been filed with the school.

The Superintendent or designee shall exclude those students who fail to meet immunization requirements as required by law.

Provisional Admission

Where regular weekly medical services are not available, the Superintendent or designee may grant provisional admission to students in exceptional circumstances for up to 90 days.

(cf. 5112.2 - Exclusion)

Provisional admissions shall be reported to the Department of Health and Social Services. The Superintendent or designee shall inform parents/guardians of available immunization services and state or federal assistance.
