

EDUCATIONAL OPTIONS

The Board of Education recognizes the need to provide alternative means by which students achieve the goals of the District.

An optional plan to meet the recognized educational needs of a student must be approved by the Superintendent, or designee.

Such options may include, but not be limited to, tutorial programs, independent study, correspondence courses, **online courses**, educational travel, mentorship programs, summer school, and early college entrance.

Credit may or may not be granted to the student based upon District evaluation of the program.

If credit is granted it shall be placed on the student's transcript. The amount of credit counting toward graduation shall comply with the District graduation requirements.

The Superintendent shall establish administrative guidelines whereby each educational option is properly analyzed, planned, and implemented and complies with all applicable requirements of the State.
