...

**2. In 200 words or less, describe this project, listing the estimated costs of the items of the planned project totaling up to \$600.**

It is very vital for a dance program to have multiple bluetooth portable speakers for their dancers. Currently I have 1 portable speaker, which only allows 1 group of students to work on a dance piece at one time. In order to have more collaboration between my dancers and more time on task, I need more portable bluetooth speakers. In today's world bluetooth is the way to go. Any student can connect their phone to the speaker to produce their music of choice. Not all phones are cable to hook up to all portable speakers.

**1- JBL - Charge 3 Portable Bluetooth Speaker - Black- \$149.99 x 2= \$299.98 from Best Buy**
