Maintenance Department Updates

Current Projects:

Paul

1. Emergency Lighting – The Contractor has completed the install. Everything should be installed by the middle of March.

2. HVAC controls –. The new Pelican control system is being installed and is 80% complete. Working with controls contractor and pelican to tie boiler and chiller into network.

Mt. Harrison

1. Electrical - LKV has turned this project to their Mechanical Engineer and we are still hoping to be working by spring break. Construction to start in the summer.

Heyburn

1. Locks – Number of cores required have been identified. Working with the manufacturer for keying schedule.
